SWAIM'S
☞ Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates to which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by
W. Gibson M. D., Prof. of Surgery, Pa. Univ.
Valentine Mott, M. D., Prof. of Surgery, New York University.
W. P. Dewees, M D, Prof. of Mid, Pa. Univ.
N. Chapman, M.D, Prof. of Physic, Pa Univ.
T. Parke, M D, Prof'r College Physicians, Phila.
Dr. Del Valle, Professor of Medicine, Havana.
Jose Roriguez de Lus, Prof of Surgery, Lisbon.
J. Chipman, Member Royal College Surgeons, London.
G. W. Erving, late Minister to Spain.
Sir Charles Pearson, Mal Gen. British Army.
Gilbert Robertson, British Consul, &c., &c
Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c
And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4,

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA,"

and having the name of JAS SWAIM stamped on the neck and wrist, and with an the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different styles, which have been turned for the exclusive use of the proprietor, by Draper & Co, bank note engravers, of Phila. Four sizes of different patterns form the body of the work, and in the centre is a portrait of the late Wm Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned scrips, and a large semi-circular disc forms the upper margin The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright Also,

Swaim's Vermifuge,

A valuable family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c, &c See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh Street, below Chesnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

From the Hon. Charles Mason, Commissioner of Patents
U S PATENT OFFICE, Feb, 23, 1855
I take great pleasure in stating that during the time I have been acting as Commissioner of Patents Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been to that capacity in constant correspondence and intercourse with my office. He has evinced a thorough acquaintance with the Patent Laws, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has made the transaction of business with him a pleasure I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted
CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.
The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

THE TWO PARTIES.—The Albany Evening Journal has carefully compiled the facts and figures from the United States Census, to show which is the really dominant party by numbers, the Republicans or Democrats. The Republican States, with their respective white population, are placed in one column—the Democratic States with their respective white population, in the other. It will be seen that the white inhabitants of the Republican States outnumber those of the Democratic States in the proportion of *one to one*

Democrats are fond of applying to their opponents the epithet of "black Republicans," as if they, in some way, derived their strength from the African race. The above figures show that the Republican party is essentially the party of the White Men of the Union, while the Democrats so only maintain its power at all by their million blacks held in slavery, which it reckons a "property" and the Electoral College, although it will not allow them to vote either for Electors or Congressmen.

THE WEST POINT ACADEMY. In a detailed report to serve to the U. S. Military Academy at West Point, made to the War department, it appears that of 221 cadets in 1857, there were 52 sons of farmers or planters, 22 sons of mechanics, 29 of judges or lawyers, 26 of merchants, 17 of physicians, 4 of clergymen, 20 whose fathers were or had been in the U. S. military or naval service, 17 whose fathers were in the civil service of government, 34 not specified. The pay of a cadet has been raised from $24 to $30 per month and the appointees has living, his books, instruments and equipments. About one half of the cadets were in debt at the time of the last report.

The first appropriation bill of the session was for the Military Academy. Mr Stanton of Ohio showed that, although so much had been said about the frugality of the Ways and Means Committee in retrenching the expenditures, the bill appropriated $50,000 more than the estimates of the Administration, and $15,000 more than was done last year.

FRAUDS IN COTTON. The late fire in one of the Low Line mills which resulted in loss of life, was caused by sand and gravel mixed with the cotton in the picking machine. In regard to it, the Lowell News says, that it reveals the fact already known to many that nearly all the bales of cotton opened there are found to contain from 8 to 12 per cent of sand, gravel, &c. and not unfrequently nails, friction matches, and other substances which are liable to strike fire in the machines used. The jury probably did not deem it their province to state how these substances get into the cotton, but they might have stated truly, that they are put in by the southern producers to increase the weight. This fraudulent operation frequently diminishes the value of a single bale some $50. The Advertiser says, that single stones weighing 28 pounds have been found in three bales, which sell at from 11 to 12 cents a pound to our manufacturers. The object of the intermixture of matches is not evident unless it be to destroy the bales and thus increase the demand for the article. It is nigh time fraud was murder as well as knavish, as is proved by the loss of life just caused in the Massachusetts Mills.

AMERICAN IRON MANUFACTURE. The Boston Atlas & Bee gives the following statistics of the iron manufacture at one point of the Great West. The consumption of pig iron in the Western States was estimated in 1857 at over three hundred thousand tons, of which Pittsburg consumed more than one-half in her manufactures. In that city there are twenty five iron and steel rolling mills, which consume

185 000 tons pig iron	$3 859 000 00
97 000 " of coal	97 000 00
4 000 " " scrap iron	200 000 00
3 500 tons forged and rolled iron	175 000 00
1 200 000 bushels of coal	251 000 00
3 000 000 fire clay	3 000 00
9 000 000 fire brick	91 000 00
9 000 " "	41 000 00
51 000 gallons oil for 7 months	10 000 00
Small items to amount of	10 000 00
	4 858 000 00

They employ 4132 hands, whose yearly wages amount to $2,276,000 00
The capital in the ground, buildings and machinery, employed in the prosecution of the business, is $2,000,000 00

It may be seen from this how immense this branch of American industry would become, if our people could have the supplying of our own markets.

THE EVENING BY LIGHT, or *Light and Comfort from the Wisdom of Advancing Years.* By Rev. Jeremiah Chaplin, D. D. Boston: Gould, Lincoln & Co. 1859.

We have received from Mr E F Duren, a copy of this work, heretofore noticed. It is a compilation of consolatory passages from pious writers, for the benefit of the aged. The compiler feelingly remarks that if the young need counsel, the aged need consolation, for with them the day is far spent, and the evening shadows have begun to fall; and will not the duty of presenting that consolation been performed in this volume. It concentrates the light of religious hope, emanating from the promises of the gospel, upon the declining path of age, and illuminates the evening shades of life with the light of divine love, and the beams of a coming and eternal day.

THE GREAT DAY OF ACCOUNT. Translated from the German of Charlotte Elizabeth Nebelin. Edited by Mrs Colin Mackenzie, author of "Dilke, or Six Years in India." Boston: Gould, Lincoln & Co. 1859.

This somewhat remarkable work, was written about the middle of the last century, by the daughter of an honored pastor of Germany, and was out of print, until a copy accidentally discovered, was republished by the venerable Pastor Kollner, in his 75th year, and reprinted. It is composed of meditations and prayers upon the incidents in the last twenty-four hours of the life of our Saviour. To a pious reader this work is full of beautiful and happy thoughts. The volume is published in an appropriate style for a religious gift book—its typography and binding being handsome and yet chaste.

For sale by E F Duren.

A bank porter in Chicago, last Saturday while going to the express office with $ 400 was suddenly knocked down by a slung shot, and the package of money taken from him. He soon rose and gave chase. The robber made for the river, crossed it on the ice, and escaped.

PRAYER MEETINGS IN JAIL. It is said that prayer meetings are held three times a week among the prisoners in Ulster county jail, NY.

John Neal says the eagle has a contempt for all other birds. The owl, however, is more contemptuous still—for he hoots at everything.

In California there is one physician to 147 inhabitants. In Maine, one in 844.

Washington Irving has given $500 to the Mount Vernon Fund. The Boston Museum contributes about $350.

Major Bretton had obtained great notoriety by constant attention to gambling. Sheridan, who had claim upon him, meeting him again after a long absence, said to him, "How are you Major? How have you been going of late?" "Ah replied the gratified man of taste "I've visited a great many statues" was the answer, "since we met. I have lost Mrs Bretton." "How did you lose her," asked Sheridan, "at hazard or quinze?"

A schoolmaster, wishing his pupils to have a clear idea of faith, illustrates it thus: "Here is an apple; you see it, and therefore you know it is there; but when I place it under this tea cup, you have faith that it is there, though you no longer see it." The idea seemed to understand perfectly, and the next time the master asked "What is faith?" they answered, with one accord, "An apple under a tea-cup."

A Michigan man recently went down into Indiana to buy a drove of horses. He was longer absent than he intended, and found it necessary to attend a business engagement. On being rather reproached for not being a better, he made due apology. "I will tell you how it is Squire; at every perky little town I say was to me in stop and be President of a bank."

LOOD BENEFACTOR.—A tall fellow, with a countenance almost entirely covered behind a fancy curtain, composed of eye-brows, whiskers, beard and moustache, and who responds to the name of Jacob Rice, was called on, Saturday, to explain a circumstance which was thought to affect his reputation as a moral man and a respectable citizen. He was found in the street at midnight, with a two ounce bag on his back, which on inspection, was found to contain two pickaxes, four gouges, and six chisels, all tried, and ready for use in the culinary department.

Jacob smiled with the most touching sweetness on the face of the officer who arrested him, and who appeared as his accuser before the magistrate. He intimated that he could very easily explain the mystery of the midnight travel.

"I was taking tools there myself," said he, "to a poor family over at Covington a widder and six small children—one of 'em a sucking baby—which I thought might stand in need of some help and comfortable seeing I know the widder to be a very industrious woman, and as the cyarn factory is closed down, of course all the works in the factory—"

"Stop!" says the magistrate; "give the sucking baby back to the rightful owner!"

"Where did you get this all this poultry, Mr Riley," asked the magistrate.

"Now if you your self or wants to quiz me," said Riley, with a deprecating smile, "you'll be a deuced deal about answering that 'are question."

"Oh, you do," said the magistrate, "then I shall not be disposed at all to commuting you as a stone and a vagrant."

"I am sorry sorry your honor has no sense of pleasant that sort of thing," said Mr Riley, in a tone of melancholy resignation; but "what can't cure to be predicated on this side of the river. I do believe that you suspects I stole them there articles!"

Sometime of that kind really was suspected, and as Riley put up chose to give a more lucid explanation of his case, he was committed to answer a charge of larceny.—*Cincinnati Gazette.*

JAMES DOUGLAS. The St. Louis Republican denies emphatically that Judge Douglas has written a letter declining to be a candidate for the Presidency at the Charleston Convention, or that he has any intention of writing such a letter.

Proposals are out for a new paper at Columbia, S. C., to be called—*The Dismounted.*" Its publishers claim, of course, to be eminently "National" Democrats.

LOCAL AND MAINE NEWS.

CONGREGATIONAL TRACT UNION.—It will be remembered that the close hearing which an interest has been obtained in the last annual distribution of pecuniary gratuities and other donations for a number of years by the above-named association expires with the closing year. Only a few days remain for making which applications may be made to the Honorary Secretary, for this city, Mr D M Howard.

DEATH OF AN OLD CITIZEN.—We learn that Capt Nathaniel Atwood, one of the oldest and most respected citizens of Frankfort died on Sunday last, and will be buried to-morrow (Wednesday) at 1 o'clock P M, with Masonic honors, by Howard Lodge of Free and Accepted Masons. The fraternity of this city has received an invitation to be present.

On Sunday morning last the mercury fell to 14 degrees below zero, in this city—the coldest was her of the season.

AN UNHAPPY CHRISTMAS.—Mrs Divine, a poor but worthy widow of Portland, while returning home, Saturday morning, with her Christmas dinner, the donation of a friend, stepped into a neighbor's to exhibit her treasure and obtain their congratulations; but, sad to relate, when leaving the house, she slipped and the package of money taken from him. He soon rose and gave chase. The robber made for the river, crossed it on the ice, and escaped.

Mothers! Mothers! Mothers!

Don't suffer your cross Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the passage of Teething, by softening the gums, reducing all inflammation—will allay all pain and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it the best and surest remedy in the world in all cases of Dysentery and Diarrhœa in children whether it arises from teething or from any other cause. If this and health can be estimated by dollars and cents it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

TWO DAYS

LATER FROM EUROPE.

ARRIVAL OF THE

Steamer Asia,

AT NEW YORK.

SANDY HOOK, Dec 27.

The steamer Asia, from Liverpool 11th, has passed this point. Her advices are two days later than those by the Pacific at St Johns, N F.

She reports Dec 12th, 8 AM, exchanged signals with steamship Canada for Liverpool—13th, 7 30 PM, passed a large steamer supposed to be the City of Baltimore. 24th, 1.30 AM, exchanged night signals with steamship Persia

The Asia had strong head wind with a westerly swell during the passage.

Numerous political speeches were made by Parliament politicians, including Gibson and Bright, on reform, at a great demonstration in Manchester.

Fifteen young men occupying respectable positions have been arrested near Cork, charged with being members of a society having for its object the invasion of Ireland by American Filibusters.

The meeting of French legislature was postponed till February

Montalembert's appeal was fixed for Dec. 16th.

The Bank of France has gained 26,000,000 francs in specie during the month.

A French negro emigration vessel is reported to have been overhauled by a British cruiser, on the African coast, and compelled to discharge her negroes although the shipment was perfectly regular.

The Spanish expedition to Mexico is to be on a larger scale than was supposed.

The Calcutta mail of Nov 9th had arrived at Suez the news is unimportant.

The Emperor of Japan is reported to have died.

SECOND DESPATCH.

Steamer Asia reached her dock at half past 7 this morning.

At a speech at a grand banquet given by the fishmongers company in London, Earl Carlisle, a member of the Cabinet declared the total assent of government from the recommendations of Sir J. Young's parliamentary report relating to the future policy to be pursued in protectorate of Ionian Islands.

The juncal committee of the privy council have confirmed the decree of the admiralty court in the matter of the collision between the American ship North American and a Spanish vessel in the Irish Channel. The decision held that both were to blame.

Pressure was being brought upon government to secure a guaranty of 4½ per cent on half a million sterling, new capital of the Atlantic Telegraph Co.

Memorials from all parts were influentially signed and it was supposed government would accede and if so a contract for a new cable will be forthwith made.

No attempts can be made, with any prospect of success to lift the old cable until the return of calm weather at the end of April or May, and even under the best circumstances, expectations with regard to the operation are not favorable. Meanwhile it has been definitely ascertained that the existing damage was not at the shore end. The laying of the new end has been completed to a distance of two miles out from Valentia, and the portion taken up was found to be in a perfect condition for all electrical purposes.

Experiments lately undertaken by a person previously unconnected with the enterprise strongly support the original inference that the main fault is about 270 miles from the Irish coast at a depth of 900 fathoms

There is also a fault on the other side which is thought to be about 300 miles from New Foundland. Current however still continues to be received although of a kind so feeble and unsteady as to be useless for any practical purpose

At present the telegraph is in charge of Mr Healy who in manufacturing an apparatus such as his experience on the spot leads him to think may yet possibly lead to some result, but in no case could there be a hope of achieving permanently any satisfactory communication otherwise than by an entirely new line.

After the unanimous expression of opinion, not only of the commercial towns, but by the people at large, that the work is one which the nation should not allow to fail, there is little doubt of the required help being seconded subject to such stipulations as may protect the general interest of the public

Among other propositions, some modifications in the construction of the board might perhaps be advantageously demanded.

The Daily News, both in its city article, and editorially, comments upon the appeal to the government, and expresses a hope that the application, supported as it is by most influential names in commercial circles, will be granted.

The Bank of England, on the 9th inst., reduced their rates of discount from 3 to 2½ per cent. The step was quite unexpected The English funds had been quiet prior to this event, but upon its becoming known an improvement set in and an advance of a quarter per cent was established.

On the 10th the market was animated but firm during. The closing price for consols was 97¼ a 97½, there was no transactions for money, the transfer books being shut in the open discount market

Latest.

London, Saturday—The Daily News on its city article says so far scarcely any effect has been made by reduction of the Bank rate upon the general money market.

The demand for money is active but rates are unchanged.

The funds are buoyant. The Lombard St, discount houses have reduced their rates to 1½ per cent.

The times notes numerous applications at the bank for discount and a buoyant state of the funds.

Liverpool, Saturday noon—Cotton quiet.—Breadstuffs and Provisions perfectly stagnant. No arrivals.

France.

The French admiral declares the bay and river of Fourane, and the port of Cham Callao, in Cochin China, in a state of blockade

A committee has been appointed to examine into the best means of improving the manufacture of the arms in France.

The opening of the chambers is adjourned till February, owing to the preparation of the budget not being quite ready advanced.

Italy.

The greatest activity reigns in the arsenal of Venice. The number of workmen has been doubled, and vessels stores are being brought in

Arrests have been made at Milan, and seventeen students have been arrested at Pavia, where several bombs have been found but for firearms, many of which have been seized.—The garrison has been increased by a grand battery.

Sardinia.

The Sardinian government denies that anything has as yet taken place in the question that a war is imminent with Austria.

Spain.

Considerable damage had been done at Seville by inundations.

There had been many shipping disasters on the Spanish coast. Upwards of 100 dead bodies had been washed on the Andalusian coast.

Hanover.

The Chambers had rejected a bill proposed by the Ministry for an increase of the income tax.

India.

The Calcutta mail arrived at Suez, Dec 8th. Lord Clyde marched to attack Amethee Nov 9. The Rajah submitted and entered the British camps and the fort surrendered.

On the 12th the Sepoys fled from Oowa roo which was captured by the English. Gen. Kerr occupied Kapoor and Kanas on the 4 h.

China.

Hong Kong dates are to Oct 21. Lord Elgin's negotiations at Shanghae had proved satisfactory.

The American Commissioner had not returned from Japan.

Canton was perfectly quiet and trade had been resumed.

Foreign missionaries were locating themselves in various parts of the city and suburbs.

Eighty-four chops of tea had been disposed of. The stock was estimated at 200 chops.

Australia.

The Australia mail with Melbourne dates of Oct 15, has reached Suez with £130,000 in gold

Trade was quiet at Melbourne

The diggers were returning disappointed from Port Curtis.

Liverpool Markets.

Later from Santa Fe.

St Louis, 27th.

The Santa Fe mail of the 6th inst, reached Independence Saturday.

The conductor reports snow on route three feet deep and weather very cold.

The legislature was to convene the day the mail left.

Fort Defiance dates are to Nov 21.

Col Miles had pursued the Indians into their mountain fastnesses, over regions heretofore unknown to the whites, and were putting them to flight wherever they found them. Maps of the marches were soon to be made out, giving much information respecting the country.

Maj Backus returned to Fort Defiance on the 18th, without an engagement with the Indians but had killed 6 of them in various skirmishes. Capt Vaddes of a company of rifles had been badly wounded.

Col Bonneville and Superintendent Collins go to Fort Defiance during the armistice to treat with the Navajos, their action to be final either for peace or war

Judge Bonne will take the district vacated by Judge Benedict

NOT COMING—The Ojibway Indian lecturers and singers, under the direction of Rev Geo Copway, who have been at Portland recently, have informed us that they shall be unable to visit Bangor at present, as proposed. If any persons or any society should desire to engage them, however, they will be for a limited time at Boston, and may be addressed there through Mr Copway

A SAVAGE ATTACK.—As one of our citizens was going home on Saturday evening about half past nine o'clock, he was attacked at the junction of York and Danforth streets by three men and knocked down Upon giving the alarm the scoundrels took to their heels.—*Argus.*

THE "OUR SOLDIERS BILL" which passed the House, on Wednesday last, by a vote of 120 to 73, grants pensions to all who served in the war of 1812 or any of the Indian wars prior to that date, as long a term as sixty days, or who were ever engaged in any battle. It gives $30 per annum for a service of sixty days, $75 per annum for a service of six months, and $88 per annum for a service of two years; and makes no distinction between officers and private soldiers, as to the rate of pension. It makes the same provision for seamen and marines, in the naval service, as for land forces. In case the soldier has died, leaving a widow, it does her the same pension her husband would be entitled to, if living.

It is by no means certain that the bill will pass the Senate.

FROM WASHINGTON.—The following is from the correspondence of the New York Journal of Commerce:

"There is no alarm felt in well informed circles here as to the status of our foreign relations; on the contrary, the utmost confidence is felt in the speedy and satisfactory adjustment of all our outstanding difficulties. Satisfactory assurances of the friendship and paternal intentions of foreign powers are received at the State Department, and the stories of Spanish pugnacity in Mexico, of French armed interference in Central America, and of Napoleon's ambitious policy everywhere, are wholly discredited by those who are in a position to know.

Senor Mata, the Envoy of Juarez, is here, and has seen Gen Cass more than once. I believe that were he in a position to prove that Juarez had the whip-hand of the Clericals and the Church party, the President would receive him, and be glad to recognize the ascendency of the Liberals; but I much fear that Senor Mata cannot produce satisfactory evidence of so desirable a state of facts

From what I can gather, I am inclined to think that such a modification of the present tariff will be proposed, with the consent of the of the Administration, as will produce a sufficient revenue to provide for the expenditures of the government, and thus obviate the necessity of asking for a new loan.

Judge Douglas is not expected here until after his election. His first appearance in the Senate is looked forward to with great interest What course he means to pursue—whether to fight the Administration, or be nice Democrats and conciliatory—is the great question. I do not believe that anybody knows. Mr Douglas's difficulties are not purely political. He has some personal difficulties with distinguished gentlemen here, which he will be forced to adjust on his arrival."

The Plymouth Rock notices a sewing machine which has been invented and patented by Mr Lyman B Blake, of South Abingdon, and which seems destined to work a revolution in the process of bottoming shoes. The machine carries a waxed thread, made from any number of cords of twisted shoe thread, and stitches the soles and vamps firmly together, "through and through," the outside seam being closed up in a channel, and the inside stitch being drawn firmly to the inner sole — By this process the welt is dispensed with, and though one or more outer soles are worked, the seam cannot pull up, but is close and firm, as if pegged to the last This machine sews a shoe quicker than it can be pegged, and makes work even more elastic than common double seam work.

SCENES
—IN—
AROOSTOOK!
MR. DELAVAN takes pleasure in informing the citizens of Bangor that he has completed his series of Panoramas of Aroostook, which are Nine in number, 18 by 9 feet in size, and cover 1500 square feet of canvass. Their titles are—
View near Mattawamkeag
View in Aroostook, with Katahdin,
View of Mars Hill, from Houlton,
View from Parker's Hill, near Houlton,
Junction of the Aroostook and Presque Isle Rivers
View of Intervale near Presque Isle;
View of Quoggy Joe Lake, and surrounding territory;
View of the Presque Isle Valley,
Aroostook in all its, and as it will be!
The above Scenes are chosen with the idea to show the character and give an idea of the extent of the Aroostook. The view of the Presque Isle valley extends to Mount Katahdin, which can be easily seen on a clear day, distance over ninety miles.
MR. DELAVAN hopes these scenes will please all who come to see them, and they are of interest to all, at present, who live in the State
They will be on exhibition soon, of which due notice will be given. dec21

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below

By order of the Post master General the United States Mail steamers are hereafter be despatched from New York on Aspinwall, on the 5th and 20th of each month

Passengers embark at the Railroad Depot, Aspinwall and conveyed across the Pacific Steamers without any extra expense This is the only line having Through tickets guaranteeing no detention on the Isthmus

Transit made in *four hours entirely by daylight*, thus avoiding the great expense of night steamboats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals

Arrangements have now been completed so that the regular U S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and *short* passage with the greatest comfort and safety to health

Tickets must be secured by one of the Company's Agents before they will be recognized by the Agents at Panama and tickets thus signed can be obtained of the *only authorized Agent* for the U S and Pacific Mail Steamship Companies, in this city. C L BARTLETT, Agent

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician

It is not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when its water pot this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the rather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have no had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Absolute Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GILES, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 238 Broadway, N. Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices.

Bank Checks—25 cts per lb.
Bank Bills—$18 per 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts. per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb.
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other as the moistness of the climate does not destroy it,—other properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies and the Central American States no public records can be kept over 20 years, written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rain and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for Paper must be addressed to A NICHOLAS, President of the Company, No 70 Wall street, New York

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U S Patent Office, Washington under the Act of 1837,)

70 State St, opposite Kilby St.,

BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France and other foreign countries Caveats, Specifications Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington.

The Agency is not only the largest in New England but through it inventors have advantages for securing Patents, of ascertaining the patentable ity of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

TESTIMONIALS

"I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of procuring to their application a favorable consideration at the Patent Office. Late Chief Clerk of Patents

Boston, Feb 9 1858

Mr R H Eddy has made for me THIRTEEN applications all but one of which patents have been granted, and that one was withdrawn on reconsideration. I consider Mr Eddy as a man of great talent and ability in the patent law, and very reasonable and fair in his charges, and can cheerfully recommend inventors to employ him in the procuring of their patents as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges. JOHN TAGGERT

From Sept 17 h, 1857, to June 17th 1858, the subscriber in course of his large practice made on *three* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in favor, by the Commissioner of Patents.

Ayer's Pills

Are justly celebrated for the prompt and certain cure they effect of the following complaints, which they speedily cure by their purifying and invigorating action on the blood, and the whole living fluids of the body. Such cures are literally within the knowledge of every community, and need only to be known to be appreciated by the afflicted. Sufferers from these complaints should not rest until they have given Ayer's Pills a fair trial, and proved for themselves their wonderful power to cure.

Subjoined are the statements from a few of the many men, of their effects in their practice:

AS A FAMILY PHYSIC

From Dr. E. W. Carpenter of N Y

"Your Pills are the prince of all cathartics, uniting more perfectly than any other the various qualities required in such a medicine, but very certain and effectual to their purpose, which makes them invaluable in the whole catalogue of diseases."

FOR JAUNDICE AND ALL DISORDERS OF THE LIVER

From Dr Theodore Metcalf, Boston

"Not only are your Pills a safe and reliable purgative, but I have proved upon the Liver very marked and decisive effects, such as I have not witnessed from any other medicine. In all cases of Jaundice, Dyspepsia, Liver Complaint, and Disorders of the Liver, they are the most active remedy we possess, and when taken in small and proper doses, they are the best cathartic we employ in our practice, as they never fail to operate efficiently. Indeed, they are the only pills which will, in general, be found necessary to be administered in the treatment of disease."

DYSPEPSIA — INDIGESTION

From Dr Henry J Anderson, New Orleans

"The Pills you were kind enough to send me have been used in my practice and in my family, with the most beneficial results. I have found them perfectly adapted to the derangements of the digestive organs, and have been enabled to work upon them almost with the confidence of mathematical precision. They are prompt and efficient in their operation, and safe and pleasant in their combination, and will supersede many other remedies we possess. I have used them in all cases for which a cathartic is required, and in those obstinate affections of the liver which require mercury, they will be found a safe substitute for that dangerous drug. In many Fevers, Inflammatory and Bilious complaints, they are most valuable auxiliaries. In short, in every case in which I want to know what will cure, I prescribe Ayer's Pills, and in no other do I feel sure of the result. I have no secret in my practice. I tell you what I do, and what I use, and why I do it, and I am willing that the whole world should know it. I am not afraid of the effect of my example. I only wish all physicians would imitate it. Then we should soon find out what are worthless, and what are curative remedies, and the public would be the gainers. Your Pills have had a fair trial in my hands, and have done wonders in the cures they have performed. I could not, if I would, speak in too high terms of their virtues, for I know that they have saved many from the grave. I have no hesitation in saying that they are the best cathartic we have, and that they will do more good than all the other cathartics in the world. Their secret is that they cure the disease."
